Work Experience

TECHNOLOGY BRAINZ - WORDPRESS DEVELOPER

MAY 2024 - PRESENT

As a Full Stack WordPress Developer, I design and develop high-quality, responsive websites tailored to client goals. My focus is on delivering scalable, SEO-friendly, and conversion-optimized solutions that enhance user experience and business performance across various industries.

- Developed and maintained custom WordPress themes and plugins with clean, optimized code.
- Built scalable, responsive websites integrating APIs, WooCommerce, and advanced custom features.
- Worked directly with clients to analyze requirements, propose solutions, and deliver projects on time.

WORDPRESS DEVELOPER, IBRISM TECHNOLOGIES

NOV 2023 - MAR 2024

As a WordPress Developer, I designed, customized, and maintained client websites with a focus on performance, usability, and brand consistency. My role included translating business goals into functional digital solutions while ensuring smooth collaboration and timely project completion.

- Developed and maintained custom WordPress websites tailored to client requirements.
- Managed timelines, communication, and delivery for multiple ongoing projects.
- Implemented SEO best practices, responsive layouts, and performance enhancements.

TECHNOLOGY BRAINZ - WORDPRESS DEVELOPER

FEB 2023 - OCT 2023

As a Full Stack Web Developer, I created dynamic, high-performing web applications focused on usability, scalability, and business impact. My work combined clean front-end interfaces with robust back-end functionality to deliver complete digital solutions for diverse clients.

- Built and deployed custom web applications based on client specifications and goals.
- Conducted testing, debugging, and performance tuning for optimal functionality.
- Ensured smooth user experience through responsive design and backend optimization.
