PROFESSIONAL EXPERIENCE

Full-Stack WordPress Developer
April 2024 – Present

Technology Brainz

- Engineer and customize production-grade WordPress websites and WooCommerce stores tailored to client specifications and commercial requirements.
- Develop modular WordPress theme templates and bespoke PHP plugins to deliver custom business functionality while avoiding third-party plugin bloat.
- Build clean, responsive, and cross-browser frontend user interfaces using PHP, modern JavaScript, Tailwind CSS, and semantic HTML5/CSS3.
- Implement third-party REST APIs, webhooks, payment gateways, and CRM platforms to automate lead workflows and ensure reliable data handling.
- Conduct performance audits focusing on Core Web Vitals, script deferral, caching configurations, and technical SEO structure.
- Debug complex WordPress errors, database queries, and plugin incompatibilities to maintain website security, stability, and high availability.

WordPress Developer
April 2023 – March 2024

Ibrism Technologies

- Constructed and maintained responsive WordPress websites, configuring Elementor Pro structures and custom layouts for client deliverables.
- Configured custom post types, custom fields, and reusable dynamic templates to support straightforward content management for business owners.
- Diagnosed and resolved WordPress runtime errors, theme layout defects, and plugin conflicts to ensure uninterrupted client site uptime.
- Executed website speed enhancements, image compression, database cleanups, and proactive security maintenance across client accounts.

Frontend & WordPress Developer
February 2021 – March 2022

Studio Technologies

- Developed responsive page layouts and user interface components adhering strictly to design guidelines using HTML, CSS, JavaScript, and PHP.
- Applied mobile-first responsive design principles, ensuring cross-device compatibility across desktop, tablet, and mobile browsers.
- Assisted with frontend styling revisions, content migrations, template adjustments, and cross-browser quality assurance testing.
